

# Dual Panel

## Modular Wall System

Artisan's Dual Panel Wall System is one of a kind! The system is made out of two  $\frac{3}{4}$ " thick melamine panels divided by struts, creating a 4  $\frac{1}{2}$ " thick box beam. This allows you to flush mount speakers and use a standard door if you choose! **In addition, our Dual Panel Wall System can be installed in days, not weeks!**

### *Other benefits of the Dual Panel Wall System include:*

- Never needs painting
- No fading from UV light
- Hides your wiring
- Quick and easy assembly saves you time and money
- Lotions and sprays wipe off easily
- Dual Panel Walls can be reconfigured or moved to a new location
- Available in a wide array of colors
- Sliding doors AND standard doors work with our Dual Panel Walls
